"SPALDING'S GLUE," with brush, ready for use.

At 7:45 o'clock, on motion of the Hon. H. W. Webb, C. Winston, Esq., was made chairman of the meeting. Mr. John H. Oberly, editor of the BULLETIN, appeared upon the stand, and in a manner that left no doubt on the mind of any one as to his success, proved that the counter affidavit of Mathew Donahue, published in the Cairo Sun, yesterday morning, was not only false, but was secured by partisans of D. W. Munn through a resort to means at once criminal and infamous. For a full and detailed account of this part of the proceedings we refer the reader to our editorial page.

Col. Crook took the stand about 8 o'clock. His appearance was greeted by a long continued round of the most enthusiastic applause. He then proceeded to address the immense audience, and during an interval of two hours and eight minutes, piled fact upon fact, argument upon argument, in vindication of the principles and policy of the Democratic party, and in exposing the anti-Democratic laws and tendency of Radicalism. We much regret that our space will not allow even an epitome of his speech, as it was regarded on all hands as a most masterly exposition of the intricacies of the present Radical tariff, the funding enactment and other laws of Congress passed in the interest of the rich bondholder, the iron-mongers of Pennsylvania and the manufacturers of New England. He showed how the poor man, the Western farmer, laborer and mechanic, is robbed by Radical law that the rich men of the country may become still richer; he showed that England derives abundance of revenue to pay the expenses of its government on slaves, articles, while in this free country a Radical Congress has laid a tariff on four thousand five hundred articles, and among these all the articles of necessity to the poor man and the laborer. He denounced the Schenck revenue bill as a swindle. The Democratic party in Congress tried to get a separate vote upon the articles named in the bill, that they might reject the bad and retain the good. But this privilege was denied them. The designing Schenck, knowing the feelings of the Democracy to bring about a reduction of the duty on tea, sugar, coffee and salt sallied these articles with conditions that were calculated and intended to fatten and enrich monopolies at the expense of the people. Taking the bill as a whole, however, Mr. Crook thought that he would subserve the interests of his constituents by voting for it, and he did vote for it.

The marine ways, mills and factories of Mount City give the place an air of thrift and business, which we hope is as real as it seems. The interests of that people and this are so closely allied that the prosperity of the one contributes greatly to the prosperity of the other.

PREPARE FOR THE CHOLERA.—With the heated term comes the danger of that frightful pestilence—Cholera—and kindred diseases. What untold and inscrutable misery has been visited upon thousands annually by these awful complaints. But every one ought to be made aware that a specific for this class of disease, as well as a certain preventive, is the celebrated Mishler's Herb Bitters. It will positively fortify the system against the attacks of Asiatic Cholera, Cholera Mortis, Cholera Infantum, Diarrheas, Summers Complaint, Dysentery, Colic, Painters Colic, &c. D. H. Bissell, M. D., Physician-in-chief of the U. S. Hospital ship "Falcon" highly recommends it for Cholera, and has used it with marvelous success in such cases. It acts like an angel of mercy in every instance. Sold by all druggists and dealers. Price one dollar per bottle.

THE PEOPLE'S MEAT MARKET.—C. GAYER & CO., PROPRIETORS.—The meat market just opened by Gayer and Co., at the corner of Washington Avenue and Tenth street, is just exactly such a meat market as those who know Gayer would expect him to establish when he "spreads himself." Everything is new, freshly painted, and wears an air of cleanliness that no one will fail to commend.

Gayer & Co. are among the oldest and most experienced butchers of the country and have learned that it pays best to keep first class meats, and command a first class custom. If citizens would, therefore, secure splendid fresh meats, pork, beef, mutton, veal, lamb or sausages—they can always find them in any quantity desired at the People's meat market. Just try it.

Fresh Baltimore oysters served in any style desired, can be obtained, at any hour of the day or night at Louis Herbert's restaurant. Also oysters for sale by the can, in any quantity desired, at the same place.

## CREBS IN CAIRO.

An Immense Meeting—A Telling Speech Great Enthusiasm—Gratifying Results.

If there is a Democrat or supporter of Col. Crook in the city who is not elated over the success of the meeting held in the Athenaeum last night, that individual has not developed himself.

With such a record, continued Mr. Crook, "Mr. Munn is not in a condition to criticize soldiers who remained in the field until the last gun was fired and until the last armed rebel had surrendered; much less is he in a condition to cast reflections upon those who laid down their lives on the altar of their country and now sleep beneath the sod and sky of a Southern climate."

This part of the Colonel's speech brought out such rounds of applause as made us doubly sure that Dan Munn, neither as a soldier or politician is in favor with those who know him.

Shortly after 10 o'clock, at the suggestion of Mr. Joel G. Morgan, the crowd gave three rousing cheers for Colored Crebs and the Democratic party and then dispersed.

Taken as whole the meeting, in point of numbers, intelligence, responsibility and enthusiasm has never been surpassed in Cairo.

DEMOCRATS OF SOUTH CAIRO PREACHER.

—There will be a meeting of the Democrats of South Cairo preachers in the engine house on Seventh street on Monday evening, the 1st of November, for the purpose of organizing a precinct club. A number of Democratic speakers will be present and make short addresses.

Let every Democrat, or citizen who is tired of Radical rule, be present, and do his part toward affecting the much needed change.
